1. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest, at least, a push back storage rack system having a storage rack structure forming a single cart lane with a loading end at a lowest part of the inclined cart lane and a support beam located at said loading end, a plurality of carts including a first cart and at least one higher cart, each cart including a leading end and a trailing end, the leading end of each cart always being positioned farther away from the loading end of the inclined cart lane, a leading cross piece extending between side plates at about the leading end of the at least one higher cart, the leading cross piece of said at least one higher cart being positioned to contact a cart beneath it, said at least one higher cart when both said at least one higher cart and the cart beneath it are at the loading end of said inclined cart lane, so that the load of said at least one higher cart is transferred through said first cart to said support beam.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and,
